

EAS RF 8.2MHz Mono System PDS8830

It is special designed for top grand shopping plaza, garment stores.

The elegancy design, the concision shape together with softness color, it's the best choice for your ornament taste of stores. Mono-antenna System, one antenna can detect two sides, excellent detection for both soft label and hard tag. DSP and EPGA technology, self-adjusting electronics, it can very easy to install and adjustment. 3D antenna design, with high detection rate, low false alarm rate and low blind area.

Main Technical Parameter

Scan center frequency: 8.2MHz \pm 0.05MHz

Sweeping bandwidth: 7.7 - 8.7MHz

Detection range:

4x4cm soft label: 120-160cm

Standard hard tag: 140-180cm

High Q hard tag: 160-240cm

Power voltage: 24VDC

Power consumption: \leq 24W

Material: Transparent Acrylic

Antenna pedestal: Black

Dimension: 1530x335x130mm
